He has addressed this several times and just wanted to voice his opinion that he feels a Traffic Study needs to be done. He was at the Planning Commission meeting last evening and what he found out that a Traffic Analysis was completed and that the Buck's are requesting a waiver from the Traffic Impact Study. He also wanted to bring to the Board's attention an area on Crooked Creek Road in front of 90 Crooked Creek Road that caused his wife's car to bottom out. He has made several calls on this before and it has not been taken care of. Supervisor Santay informed Mr. O'Shea that the Township will have the roadmaster look into this.

Mr. John Murphy – Jeff Richards

Mr. Murphy presented a letter from Mr. Bob Sharrah concerning the impervious surface and the stormwater management issue. Mr. Murphy offered a settlement to the Board based on the letter from Mr. Sharrah. The brief has been postponed until February 17th but he did inform the Board that both Solicitor Yannetti and himself will need time to draft their briefs so he would like a decision as their earliest convenience. The Board will take this under consideration.

Representative Moul – MS4 / Stormwater

Representative Moul presented the Board with his thoughts on MS4 and the impact that it has on the Borough/Municipality that has gotten the notice that they need to comply. Representative Moul is not in favor of MS4. There has been no evidence, in his opinion, that things are improving with enforcing MS4. There is a lot of cost for the Borough/Township and this is an engineer's dream. Representative Moul gave the Board of Supervisors a copy of a Public Statement from Antrim Township and Greencastle Borough that was address to several Representatives, Congressmen and the Citizens of Greencastle-Antrim and Franklin County making motion that all MS4 stop until MS4 can be clarified.
